Absolutely. I'll put in a request for another month. I'll let you know if there are any problems.

Hi Sabrina:

Thanks for letting me know. I appreciate your effort in finding it for me.

The other book that you got me, "Patterns in freshwater fish ecology," is due to be returned on May 10. Any chance I can renew it for a bit longer? Please let me know.

Thanks.

Eric

I wanted to apologize that this book hasn't come in yet. It was supposedly shipped from the first library I requested it from at the beginning of the month but we still haven't received it. I just let them know and put a new request in with different libraries. Once again, I'll bring it by as soon as it comes in.

Sabrina
